

Navigators

The navigators at the Self Service Center are not acting as your attorney and cannot give you legal advice. They cannot tell you what your legal rights or remedies are, represent you in court, or tell you how to testify in court. The navigator will guide you in how to fill out the forms, but they will not complete the forms for you. They are not acting on behalf of the court or any judge. The navigators only help complete packets we sell at the Self Service Center. There are a few packets and areas of law, specified below, that they cannot assist with.
